Bakery Packaging

OPP Film

Printed and Unprinted

OPP or oriented polypropylene film is a high tensile strength, transparent and heat resistant material. These traits make it ideal for a multitude of bakery applications

Bulk Bun Film

Customizable HDPE films ideal for both newly baked and frozen bun packaging. The film is engineered to run on bulk packaging machinery and is designed to provide barriers against moisture for sustained freshness.

Interested in a Sustainable Option?

Our top of the line PCR (post-consumer recycled) bags are made with up to 30% recycled material allowing you to lower your carbon footprint.
