Stretch Film

Machine & Hand
Cast, Blown, Prestretch, Specialty

Pre-Stretch Film

Experience next level efficiency and cost savings with our wide selection of pre-stretch films. By pre-stretching the film during manufacturing, we enhance its elasticity and reduce material usage, resulting in substantial cost savings for your business. Additionally, the enhanced stretchability ensures secure containment of your products with less effort, reducing packaging time and labor costs.

High Performance

Elevate your packaging with our high-performance stretch films. Designed for durability and reliability, our down gauge options offer cost savings without compromising quality.

Specialty

We offer several specialty stretch film options including but not limited to:

- Colored Stretch Film
- Printed Stretch Film
- Stretch Bands
- PCR Stretch Film (Post Consumer Resin)
- UVI Stretch Film (Ultraviolet Inhibitor)
